Cookie Data. Cookies are files that are downloaded on your computer or mobile device when you visit certain websites. Cookies allow a website to complete certain functions such as identify a user session,

recall your preferences (e.g. language), gather information about your browsing habits or show you advertising adapted to your preferences. Essential cookies are those that are necessary to allow a website to complete certain functions, such as allowing you to securely navigate the site. Non-essential cookies are analytics cookies used for advertising and tracking so we can measure how you interact with the website content. We use essential cookies for our legitimate interest in implementing features that allow you to successfully use the site. We ask for your consent for the use of non-essential cookies.

Our Sites use first and third-party cookies, for technical, analytical and advertising purposes, and to facilitate easy sharing of content on social network platforms. First party cookies refer to cookies that are set by our site, and we are the only ones with access to this information. On the other hand, third party cookies or requests allow third parties to have access to the information collected.

Examples of the Cookies we use:

- HubSpot Analytics and tracking (non-essential). These cookies are used for advertising purposes. They allow us to keep track of what ads you have seen, and help us deliver ads that are relevant to your browsing habits. These cookies track who came to our site and continue to track you after you exit the website, serving you ads on other sites you visit later. These cookies collect information such as IP address, browser type, domain name, or when you visited our website.
- Advertising Google Analytics (non-essential). These cookies are used for advertising and analytical purposes. These cookies allow us to measure the number of visits to the website, understand your website experience and segment visitors who are new to the site from those who are returning. These cookies track your behavior such as visits and interactions with our website. These cookies collect information such as IP address, most visited pages, how you reached the site, or number of users that share content.
- Security Cloudflare (essential). This cookie is used to identify trusted web traffic. It does not correspond to any user id in the web application, and does not store any personally identifiable information.

We also provide links to our social network accounts and have included sharing buttons on our Site(s) to facilitate easy sharing content on social network platforms such as Facebook, Twitter, LinkedIn and Google+. If you access these pages or use the sharing buttons, cookies from these platforms will be downloaded to your computer for different purposes such as tracking, analytics or advertising. We have no control over these cookies.

Your Cookie Choices

You may set your browser to block or otherwise control what cookies your browser or mobile device accepts via your browser or mobile device settings. Additionally, you can choose to modify your settings and delete those cookies that are otherwise stored on your device at any time. Please consult the instructions provided by your browser or your mobile device's manufacturer to determine how you can limit the placement of and/or remove cookies or other technologies. Please note, however, that limiting or disabling the use of cookies and other technologies may impact or adversely affect your ability to perform certain transactions on, use certain functionalities of, and access certain content on our Sites.

Other Technologies. When we send you email marketing communications we use a software technology called clear gifs that help us better manage the subscription service by informing us what content is effective. Clear gifs are tiny graphics with a unique identifier embedded in emails that let us know for instance, which emails have been opened by recipients. You can always opt-out of our marketing communications by using the unsubscribe link located at the bottom of our email communications or you can contact us.

DIRECT MARKETERS DISCLOSURES

If you are a California resident, you have the right to request information from us regarding the manner in which we share certain categories of Personal Information with third parties for their direct marketing purposes, in addition to the rights set forth above. Under California law, you have the right to send us a request at the designated address listed below to receive the following information:

SUBMITTING A VERIFIABLE REQUEST TO NATIONAL EXPRESS LLC

As mentioned above, California residents have certain rights to access, delete, or otherwise exercise rights regarding their Personal Information under the California Consumer Privacy Act of 2018

("CCPA"). National Express, LLC will respond to an individual's "verifiable request" to exercise his or her rights under the CCPA – that is, where National Express, LLC has received a request purporting to be from a particular individual, and National Express, LLC has been able to verify the individual's identity. The need to verify an individual's identity is critical to protecting your information, and to ensuring that your information is not shared with anyone pretending to be you or someone who is not authorized to act on your behalf.

You may submit a verifiable request via the contact information listed in the "Contact Us" section below. National Express, LLC will ask you to provide information about yourself so that we can verify your identity as part of this process. This information may include your name, your address, information related to your vehicle, information related to your past use of our Services, and any other information deemed necessary by National Express, LLC to reasonably verify your identity, to ensure that your information is not shared with anyone impersonating you. Once we have your submission, we will compare the information you provided to the information we have about you to verify your identity.

We may need to ask for additional information if we have difficulty confirming your identity. We will not share your information or honor other requests in those situations where we are unable to confirm that a request for your information is a "verifiable request." We will not be able process your request if we cannot verify your identity.

Under California law a California resident can appoint an "authorized agent" to make certain verifiable requests upon their behalf, such as the right to know what information we collect about the consumer or to request deletion of the consumer's information. An authorized agent may submit a request by following the steps outlined above. An authorized agent must identify the consumer he or she is submitting a request on behalf of, and provide the information requested by National Express, LLC to verify the consumer's identity. National Express, LLC will also require the purported authorized agent to submit proof that he or she has been authorized by the consumer to act on the consumer's behalf.

Because the security and privacy of your information is paramount, we will ask that you identify and provide permission in writing for such persons to act as your authorized agent and exercise your applicable rights under California law in such situations. This may require us to contact you directly and alert you that an individual has claimed to be your agent and is attempting to access or delete your information. We will also independently verify your identity to ensure that an unauthorized person is not attempting to impersonate you and exercise your rights without authorization. We will not share your information or honor any other requests in those situations where you cannot or do not grant permission in writing for an identified authorized agent to act on your behalf, or where we cannot independently verify your identity.
